ES PRINCEP

MALLORCA

Mallorca has arguably grown to become one of the hottest destinations in Europe for unforgettable entertainment, trendy shopping and legendary nightlife establishments where you might even spot a celeb or two. Palma de Mallorca, the capital of the island is famous for its beaches and historic background, and it's not surprising that one of today's newest and most modern hotels, Es Princep is calling the area home. From its recent emergence in 2017 the property has quickly become a significant gathering place for locals, mainland residents, and international travelers alike.

Ideally positioned in the heart of the old district, the hotel is set within a 10-minute walk from the center of the city and within proximity to the area's best dining and cultural scene. The chic establishment provides travelers of any age the perfect combination of exciting entertainment options and minimalistic luxury accommodations.

Immediately upon entering your room, it's obvious the delivery of creating a simple, yet high-quality, elegant atmosphere with panoramic views of the ocean was held with top significance. The crème colored decor intermixed with touches of brown and gold and variations of wood create a calming aesthetic, while the sitting area and wardrobe adds to the space, making this getaway a real breath of fresh air. The soulful use of stone, wood and leather pay homage to traditional Mallorcan country fincas. Each soundproof room features climate control, IDD phone, a bathroom fitted with a shower, a Jacuzzi and upgraded toiletries. The luxuriously elegant rooms not only meet the modern traveler's needs and exceed their expectations, but are blissfully light and boast unforgettable views.

While the modern rooms serve as an upscale traveling experience in itself, the restaurant favorites and handcrafted cocktails inspired by the spirit of the island prove why the property is deemed as a stand out to guests. Set right in the lobby, Mura invites visitors to try dishes made from fresh, local produce as the chefs rely heavily on island-grown ingredients. Whether you are an early riser or a vibrant night owl Mura's long opening hours mean you'll be able to stick with your plans, whatever they may be.

Of course, the pool deck and lounge on the rooftop of the property provide the ultimate scenic oasis with unobstructed views of the ocean paired with clean, modern architecture. The infinity pool with accompanying loungers make a great place to sunbathe during the day.

Es Princep encompasses everything that a savvy traveler would expect from a stay at the newest talked about hotel on one of the most happening islands in the Mediterranean Sea. Whether you're visiting for a cocktail with friends at the rooftop bar, dipping your toes in the crystal blue infinity pool, or looking for a relaxing spa weekend this hotel won't disappoint.
